# LAKSITHA NAYANAJITH

SOFTWARE ENGINEERING STUDENT

077 55 41 417

laksithanayanajith@outlook.com

## PROFILE INFO

An energetic skillful individual with good teamwork skills who also motivates and teaches them to succeed in their task in the right way.

And also, I am a computer science student specializing in software engineering and widely use that knowledge for solving problems in general society and want to become a Full-Stack developer and grow in my workplace.

## PROJECTS

### Tropical Farm | Export Item Management System

Tropical Farm is a natural item exporting company in Sri Lanka and this system manages items, suppliers, and stock rooms. It also shows sold items, unsold items, and average profit per year.

- Frontend build with Angular and Angular Material and Backend with REST API and build with .NET Core Web API and MSSQL with Entity Framework

### Say It | Speech to Text Platform

Problem-solving web app for people who want finish their typing task quickly.

- Frontend build with Angular and Angular Material and it currently running on firebase.

### FITOS MOVIES | Movie Ticket Booking Platform

This is more than just a movie ticket booking system. When a member logs into the web app, it displays all available movies. And also, members can give ratings, add to favorite view comments of other users, buy tokens for tickets, and so on. And, film owners can upload their movies to the platform by logging into their seller accounts.

- Frontend builds with Angular, Angular Material, and Bootstrap 5 and backend build with java spring boot and MySQL databases
